Naftali Bachrach b. 1750 Kestrich, Hesse, Germany	14									12

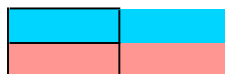

This chart shows ONLY the markers for which any participant has a difference in value compared to the mode. The first four participants have been tested to 67 markers, the next three to 36 markers and the last two only 12 markers. An upgrade to 67 markers is pending on the descendant of Emanuel Bacharach from Fellheim. Blanks indicate those markers have not been tested.

Notes:

Mode is the most common value for that marker within the group

* Markers that can change quickly, so may not be as significant

Values that are one less than the mode
 Values that are one more than the mode
